Subject: Sen. Greenleaf (PA State Sen) request on hydraulic fracturing

Tony - Eric Pauley of Sen. Greenleaf's staff called requesting information and documentation of groundwater and drinking water contamination from hydraulic fracturing. They are aware of reports from Pavillion, WY and Dimmock, PA, along with the ongoing ORD study, and want to find out whether EPA has made any findings about hydraulic fracturing and water quality. The contact is epauley@pasen.gov, 717-787-6599. Let me know if you're handling. Thanks,
Sven
